| 1v2 | 1400-1500 | Refs 3&4 | Table 3 |
| 3v4 | 1500-1600 | Refs 1&2 | Table 4 |

The number of Games won will first decide the Group placings. In the case of a tied match in the Round Robin stage it will be considered as a half Game won for both players or teams.

If two or more players in any Group have an equal number of wins at the end of the Round Robin Stages, the following procedure will apply to determine the position of the qualifiers of that Group:

In Billiards (Timed) it will be POINTS DIFFERENCE that determines the best player

If still equal, the results of the games between the players concerned will decide the winner between them.

When the Group Winners have been seeded they will be placed into the draw sheet in the positions defined in accordance with normal seeding arrangements.

The Runners-up of the Groups will be similarly seeded as above, except that they will be placed into the highest available seed position in the opposite half of their own Group winners.
